She ate nothing at all for six weeks previous to her death, and a little milk occasionally was the only nourishment she could take. Nothing in the shape of food would remain in the stomach, and the physicians were completely baffled as to the cause of her disease and death. A post mortem 12 00 to 40 00 examination developed the fact that the stomuch was completely filled with a hard, cartilaginous tumor, fed by a very large blood-a mystery. There being not enough of the stomach left to hold a table spoonful of food, 5 50 to 25 00 the poor woman had literally starved to death. About forty of the oldest citizens of Dunfermline, county Fife, Scotland, recently dined together, the youngest of whom was seventy and the oldest ninety-three, the average age being seventy-five, and the aggregate being more than three thousand years. Songs and anecdotes of the olden times were given, and seldom any where has a more successful re-union taken place. It is proposed to make the celebration annual, all natives of the town who shall have reached the age of seventy being admissable.

WE WOULD CALL THE ATTENTION OF GUANO Dealers, Planters, and Farmers, to the article which we have on hand, and for sale, at Thirty per cent. less than Peruvian Guano. and which we claim to be superior to any Guane or Fertilizer ever imported or manufactured in this country. This GUANO is imported by WM. H. WEBB, of New York, from Jarvis' and Bakers' Islands, in the "South Pacific Ocean," and is sold genuine and pure as imported. It has been satisfactorily tested by many of our prominent Far

mers, and analyzed by the most eminent and popular Agricultural Chemists, and found to contain (as will be seen by our circulars) a large per cent, of BONE PHOSPHATE OF LIME, PHOSPHORIC ACID, And other animal organic matter, yielding ammo nia sufficient to produce immediate abundant crops, besides substantially enriching the soil. It can be freely used without danger of burning the seed or plant by coming in contact with it, as is the case with some other Fertilizers; retaining a great

degree of moisture, it causes the plant to grow in a healthy condition, and as experience has proved, FREE OF INSECTS.
